## Eagle Bridge Health and Wellbeing Centre

**In Depth were awarded the cleaning and maintenance contract for Eagle Bridge Health and Wellbeing Centre in Crewe by Central and Eastern Cheshire Primary Care Trust when the Centre opened in November 2007.**

The £10 million facility was developed in line with government policy for large scale modern primary care centres. It accommodates the 36,000 patients of 22 GPs and serves a further 400,000 local residents with services that include Dental, Physiotherapy, Ultra-sound and X-rays, Speech Therapy and Podiatry previously only available in the local hospital.

The standard of hygiene and cleanliness in hospitals and health centres is under continuous scrutiny. As part of this contract we are tasked with the ongoing challenge of continually delivering above and beyond expectation.

A full team of In Depth cleaning and maintenance operatives keep the facility spotless and in full working order.

We take enormous pride in offering the very highest quality of work and exceed anticipated levels of service in most areas. This clearly identifies our business as a market leader in the managed services sector.

## Measurable results

- In Depth work in partnership with Eagle Bridge to train and upskill both workforces, which guarantees excellent standards of hygiene are maintained.
- 3 quality audits are carried out per month with an average score of 5 out of 6 obtained.
- Awarded 5 Stars and won Best in Health Category at the National Loo of the Year Awards 2008 for the highest possible cleanliness and hygiene standards in public facilities.
