“More than a Cleaning Service. Creating an environmental change”

In Depth are proud of its commitment to service delivery by investment in our people and technology.

Peter Roach - Chairman

Introducing

In Depth Managed Services have developed a unique business over three decades with an ethos that stands out in an increasingly competitive market. An unrivalled commitment to excellence combined with a passion for customer service, to provide cleaning solutions and soft services tailored to your workplace.

We use the latest management systems, technology, tools and materials and remain flexible in the way we work by listening to our clients. Our skilled management and workforce are expertly trained and motivated, to ensure our demanding standards are always met or exceeded. With nationwide coverage, we offer the strength and security of a national organisation with the reassurance of a fast, friendly, local service.

Service with Passion

Our commercial cleaning division is expertly managed and provides an integrated service from single cleaner sites to full facilities management and front of house service, leaving you to do what you do best - manage and run your business.

Our site operatives, all of whom have been interviewed face to face and reference checked are trained to The British Institute of Cleaning Science (BICSc) accredited standards.

In Depth's unique Communication Centre works in partnership with our management team throughout the UK to ensure that agreed service levels on site are met utilising the latest technology devices to measure performance across contracts in real time.

Fully Resourced

Windows cleaning is a skilled trade which has undergone a massive transformation over time, as windows get bigger, higher and more integral to a building's design. In Depth's window cleaning services have always been at the core of delivering complete solutions for our customers

We use the most up-to-date technology and proven processes to achieve first class results that are health, safety and environmentally compliant. The In Depth fleet of 'Reach and Wash' vehicles, with highly trained staff, provide a virtually 'ladder-less' safe and efficient service at all times. Traditional windows cleaning methods are also utilised where required.

Providing Solutions

Qualified and trained industrial teams deliver the most efficient techniques over a variety of disciplines including industrial deep cleans, site clearance, litter picking, end of tenancy clearance, floor restoration and maintenance, high level cleaning, kitchen cleans, carpet and upholstery cleaning, needle clearance and hospital cleaning to name but a few.

Trusted Service Guaranteed

The cleanliness and presentation of commercial washrooms is vital for a safe and healthy work environment. For employees and visitors alike, maintaining these areas in a pristine condition should be top priority.

There is no more important area than the washroom to ensure the cleaning work schedule is in tune with customer needs. So our range of washroom hardware and consumable products offers a wide choice of options and prices.

Taking Pride In Our Work

Inside and out, our commitment to the highest standards of service is absolute.

We are proud to work with partners to provide whatever soft services you need. From internal plants, lawn and bedding, and large scale ground maintenance to pest control services whether preventative or eradication, we take pride in protecting the whole of your work environment.
